

Affinity Hospice Prn

Hospice & Palliative Care Services

We have been Caring for our Community for over 21 Years!

Now Offering Hospice & Palliative Care Services!

We at Affinity Hospice understand that Hospice is a scary alternative and may not be right for your or your loved one at this time but Affinity Hospice offers more than one care option.

Hospice services, are designed to provide medical, emotional and spiritual support to patients, their families and loved ones who are in the final stage of a terminal illness. Comfort, control and dignity are paramount in our person-centered model of care. Hospice affirms life through sensitive, holistic care during a vulnerable time.

Palliative care, also increasingly known as Supportive Care, may be one of the most mis-understood terms in healthcare. Many people believe it's the same as hospice care and it means the end of life. But palliative care is different from hospice, and when put in place, palliative care can bring hope, control, and a chance at a better quality of life for seriously ill patients and their caregivers. If you need more care than Home Health but not ready for Hospice care then Palliative care may be the right care for your or your loved one.
